16	40	5	20		Sow Wheat and Rye, remove young Plants and Trees about the New Moon, observing this as a seasonable secret, that in setting, you carefully place that side to the South and West which were before you took up the Plant; otherwise the cold kills it. Gather your remaining Winter Fruit, set all kinds of Nuts and Acorns, and cut Rose-trees but once in two years, if you intend to have store of Roses.
26	42	5	18		The Garments you last Month hung on your backs in jest, now button them close in good earnest. Cloth you now for prevention, for the cold comes insensibly, & Fogs of times beget a whole Winters cold. Consult with your Taylors, as well as Physicians.
