*A Description of the Ports and Islands upon the Coast between the
Amazons and Cape Florida.*

Note, If you come upon the *Spanish Coast*, between *April* and *Sept.* or *Oct.* you will seldom miss of a *Westerly Wind*, and an *Easterly Current*: In the *Winter Months* the *Winds* are commonly between the *N.* and *E.* and the *Current* very uncertain.

A Description of the Coast of Guaiana, from the River of Amazons, to the River of Oronoque, and Island of Trinidad.

WHEN you are bound for the *W. Indies*, or *Coast of Guaiana*, and taking your *Departure* from the *Lizard*, bound for the said *Coast*, first *Shape* your *Course* for the *Canary Islands*, which lie in the *Lat.* of *28 deg. 30 min. SW.* till you come

into the *Lat.* of *43 Degrees*, sailing or keeping about *60* or *70 Leagues* without *Cape Finister*, which lieth in that *Latitude*, and from thence steer away *S. by W.* which *Course* will carry you without the *Island Makera*, lying in the *Lat.* of *31 deg. 20 min.* then steer away *SW. by S.* somewhat *Westerly*, which will carry you clear, and without all the said *Islands*.

And now Note, That about the *Latitude* of these *Islands*, you begin to have the *North East* or *Trade Winds*; but you will find that at some times of the *Year*, more than at others, they differ somewhat in going sometimes farther one *Way*, sometimes farther the other; and the farther *Northerly* you are, the more variable you find them to be.

And
